Paradox of tolerance and the current socio-political climate

Popper's paradox of tolerance states that if a society's practice of tolerance is inclusive of the intolerant, intolerance will ultimately dominate. In practical terms, it means that tolerating absolutely anything includes tolerating narratives that limit the freedom of others. This conversation will explore the paradox of tolerance in the context of the deep divisions that exist in our society and around so many issues.

Tuesday, November 12th

12-1:30 pm

William Pitt Union, Lower Lounge
University of Pittsburgh
